Pensare in grande, lasciare spazio alla progettualità

Think big, make way for design

ZER0.3[®]

Laminated porcelain stoneware

Grandi formati a spessore sottile evolvono il concetto di superficie, regalando continuità visiva e design custom-made ad ogni tipologia di ambiente, secondo una rinnovata progettualità che interpreta con creatività ogni progetto d'interior.

Large, but slim sizes develop the concept of surface, imbuing every type of room with visual continuity and custom-made design, while embracing a renewed approach to design that creatively interprets every interior project.

ZER0.3®

La finitura LUX è consigliata, oltre che per rivestimenti, anche per pavimenti in ambienti residenziali o commerciale leggero non sottoposti ad elevate sollecitazioni, ove non siano richieste prestazioni antiscivolo. La presenza sporadica di piccole disuniformità o di puntini sulla superficie è da ritenersi come caratteristica del materiale e della particolare lavorazione.

Qualora il prodotto sia posto a diretto contatto con l'esterno, si consiglia di utilizzare soluzioni protettive al fine di prevenire la formazione di graffi. *The LUX finishes are recommended, as well as for wall cladding, also for flooring in residential or light commercial areas that are not subjected to heavy traffic, where anti-slip characteristics are not required. The occasional presence of small inconsistencies or little spots on the surface is to be considered a characteristic of the material and of its unique production process.*

If the product is laid in direct contact with external environments, it is recommended to use protective solutions to reduce the formation of scratches.

In aree caratterizzate dal passaggio di carichi pesanti concentrati non è consigliato l'utilizzo di prodotti a spessore ridotto. *In areas that are subjected to heavy concentrated loads it is not recommended to use low thickness products.*
